Welcome to our Spring/Summer list of numismatic literature. You will find **LOWER PRICES** on many of the auction catalogues from 1960 to date. This will help researchers and collectors fill in their sets. Speaking of sets, we have a fine selection of Redbooks available at the super low price of \$1 each -- while they last.

We note that Dave Bowers has been writing wise words recently in his Coin World column, and elsewhere, about the value of a research/reference library. He's absolutely right, you know! The true secret for success in numismatics is found in the literature -- not at coin shows or auctions.

Many different volumes and catalogues have been studied by this writer in preparing different chapters for a book about early Large Size U.S. Quarters from 1796 -- 1828. It takes reviewing all previously written information to put the entire picture together. Many times, the accepted notions from the past turn out to be nothing more than mis-information; but this is discovered only after spending many hours going through a bunch of auction catalogues and books. *IT'S GREAT FUN!*

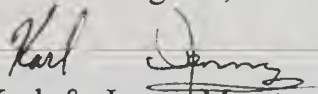

This list also includes a fine selection of Literature Mail Bid Sales. These inexpensive items help let you know what authors and titles are available concerning your particular field of endeavor. It's a good place to start when trying to decide what to get for your reference library. For the bibliophile, these are necessary tools for tracking availability and prices on many scarce works.

Many scarce works were sought out by Dave Bowers for his soon to be released book "*American Numismatics Before the Civil War -- 1760-1860, Emphasizing the Story of Augustus B. Sage*". The entire country was scoured for bits and pieces of information concerning the people and events relating to early American numismatic activities. We are proud to be a small part of this incredible book. Like last years' "*Coin Treasures and Hoards*" book, it could have only been written by the foremost numismatic author of our time.

Finally, once again we wish to say "**THANK YOU**" for your continued business. Unlike mail bid sales that close on a certain date, we buy and sell numismatic literature full-time, year round; so you can order whenever you want without any additional charges (Lot Charges & 10% Buyers Fee).

We hope you enjoy the selection.

Warmest regards,

Karl & Jenny Moulton

NINETEENTH CENTURY AUCTION **CATALOGUES**

These sales represent the core of American numismatics. The first coin auction of note was the Lewis Roper Sale in 1851. By the end of the 1850's many collectors were active from Philadelphia to Boston. The big market was in Proof sets, thanks to a friendly mint director who was happy to oblige any and all orders – including himself. These early collectors sold their duplicates, and acquired missing pieces to help fill in their collections by bidding in auction sales, just like now.

Names like McCoy, Mickley, Cohen, Jenks, Stickney, Garrett, etc. are remembered today; and any coins accurately pedigreed are highly prized items indeed. Interestingly, the collector of this time did not focus on top quality type coins. His main interest was apt to be U.S. & World Medals, George Washington items, Early Copper, Tokens, Ancients, and Colonials.

Dealers like Ed Cogan, W.E. Woodward, William Strobridge, A.B. Sage, Ebenezer Mason, John Haseltine, Ed Frossard, Sigismund Harzfeld, the Chapman brothers, H.P. Smith, H.G. Sampson, David Proskey, George Massamore, and Charles Steigerwalt all presented many fine auction sales. At times there were more than 60 combined sales by the dealers listed above in a single year. That's more than one sale per week! Public disputes such as Cogan vs Mason, Frossard vs Woodward, Harzfeld vs the U.S. Mint, and virtually everyone vs the Chapman's cataloguing the Bushnell sale, all added spicy ingredients to the marketplace. It was truly an interesting time in American numismatics.

It's due in part to several hoards of catalogues that we have any selection available today. The opportunity to acquire these catalogues at today's prices is reminiscent of when I was a young coin dealer in the late 1960's. Uncirculated silver dollars were going begging at \$60 per roll. There were thousands available from the treasury hoard and silver was still \$1.29 an ounce. No one wanted the things due to their weight. I still remember seeing Record Coin Shop ads (John Love) listing virtually everything at less than \$20 each.

Here's the good news: these Nineteenth Century sales are in the same situation price-wise as those Morgan and Peace dollars were 30 years ago ---- and they weigh a whole lot less. When the rarity factor is figured with less than 200 extant of any given sale, and in some cases much less, their desirability becomes self evident.

Collecting these early sales is challenging, but not really expensive. It takes a certain amount of background research to learn the differences between the good ones and not-so-good ones. Fortunately, there is excellent literature available should you have an interest. It's an exciting adventure trying to complete a set from any one of these pioneer dealers. This writer has been enjoying this form of bibliomania for years now. Today there are approximately a half dozen dealers that conduct literature mail bid sales. Only a very few dealers issue fixed price lists such as the one you are now reading.

The following selection provides you with an opportunity to choose a 100+ year old coin sale at a price that will seem reasonable, if not downright cheap, when we reach the 21st century. You, too, can join in the fun. We will be happy to offer opinions, insights, and answers to any questions that come our way. Now, on to the goodies.....

All catalogues are in very good to fine condition. Notable defects are described. Due to their age and the quality of paper used, all are quite fragile. HWP indicates Hand-Written Prices.

**Ed Cogan purchased this quarter at the 1875 Stenz sale by W.H. Strobridge for \$150 and sold it to Root --- presumably at a profit. It sold here for the super low price of just \$35. Eventually it ended up in the Garrett collection. When the Garrett sales took place nearly twenty years ago, this coin brought \$80,000. This date has approximately half a dozen

pieces known in uncirculated. Because of the strike and proof-like surfaces, I believe this one to be THE finest example of the date, even better than the example sold by Merkin, though it has not been given the highest numerical value according to the Sheldon grading scale. The coin has never been in circulation, but the mirror surfaces magnify the cabinet friction, making it more apparent than on frosty Uncs.....**Part HWP 90.**

NOTE: In this sale Smith is uncertain what the underlying digit in the 1815 Half actually is. He postulates it could be a “2” or a “3”. Today numismatists describe it as a “5” over “2” based in part on the description that John Haseltine had used six weeks earlier in his Type Table sale (even he was not certain). However, since it does not match any known 1812 obverse die, and since there were no new numeral and letter punches delivered between 1812 and 1815, this writer believes it to be an upside down “5” punched in error by the then 75 year old, inept, engraver Robert Scot. This theory is based on extensive research conducted on early mint personnel. Any conclusive evidence would be welcome.

THE CATALOGUES OF Q. DAVID BOWERS

Bowers & Ruddy Galleries, in Hollywood, California, named their auction division the American Auction Association; the first eleven sales bear this name. A strong beginning with the Armand Champa Sale in 1972 led to success after success.

The four part Garrett Sales, 1979 - '81, realized \$25.4 million dollars. This was the record for an American coin auction for 16 years, until April 8, 1997, when the second Eliasberg Sale was completed. This new record will stand as a milestone for decades to come. The Bowers catalogues are indeed the premier sales by which all others are judged.

spectacular offering of Proof and Mint State U.S. Gold coins of all denominations. The catalogue displays one coin, plated in color, per page. The photography is absolutely stunning. Only the material offered is more impressive. Gold \$1 Proofs begin in 1855 and contain many pedigreed, condition census examples. The Proof Quarter Eagles begin in 1856 and end in 1915 with all the Matte Proof issues. The \$3 Gold Proofs begin with 1854 and includes the 1875. There is a complete set

of the four different varieties of Proof Stellas. Also, Bickford's 1874 International \$10 Gold Piece is included, with pedigree. The 1879 Quintuple Stella is catalogued as the finest known. The true highlights are the complete sets of Indian Head Quarter Eagles, Half Eagles, and Eagles in Choice Uncirculated condition. There was to be a Part II; however, the heirs withdrew the balance of the collection after the catalogue had been readied for the printer, based in part on the advice of one of Superior's competitors. Perhaps someday the rest of "E.T.'s" collection will cross the auction block. PR 35.

NUMISMATIC LITERATURE

MAIL BID SALES

NOTE: We will supply prices realized on the following sales where available at no additional charge.

MONEY TREE (Myron & Daryl Xenos, Ken Lowe)

We were both shocked and saddened to hear of Ken Lowe's death earlier this year. He was a good friend and colleague. His enthusiasm for the advancement of numismatic literature in this country was well known. The witty accounts in "Out On a Limb" were especially enjoyable and gave everyone who read them a glimpse into the nutty world of bibliomaniacs.

Ken was 56 and left us much too early. In our last conversation just two days before his death he told me about all that was going on with his business and things could not have been better; *his dance card was full*. I'm sure that he and Armand are looking down on the rest of us and smiling at our endeavors.

We wish Money Tree continued success and look forward to more sales in the future. Ken will surely be missed.

	Ole Eklund from Spokane, Washington, is a member of the ANA Hall of Fame. He lived in an old 2-story, wood house on 7 th Street, was deaf, but studied and wrote about the coins of the world. At one time his holdings amounted to over 100,000 coins and several thousand pieces of literature. This writer grew up in Spokane; but, unfortunately, never met Mr. Eklund as he died in 1951, just before I was born.
